

HinderRUST® . . . keeps the world moving!

HinderRUST is a solvent-free and water-displacing rust stopper and lubricant engineered for surface film management.

R2.0: The Temporary Rust Protector *Industrial Protection*

Overview

This industrial version provides temporary surface protection for metal parts that need protection after fabrication, or during storage and transportation. Removable by washing to allow for final finishing.

Applications

- Machined parts
- Castings
- Stampings
- Equipment in storage
- Painted, unpainted or rusted metal surfaces
- Pipelines before installation

Available sizes:

- 8 oz. squirt bottle
- Gallon
- 55 Gallon
- 11.5 oz. Aerosol Spray Can (ASC)
- Quart
- 5 Gallon

Remember "R2.0" for Removable

S4.0: The Lubricating Rust Stopper *Multi-Purpose Protection*

Overview

Extreme surface adhesion and wetting across the surface and mounted parts allows for self-repairing, rust protection, and lubrication. Displaces water.

Applications

- Machine / Equipment maintenance
- Battery terminals, wiring, electronics
- Frees up frozen joints and fasteners
- Apply pre-assembly to stop corrosion
- Tools and weapons protection
- Protect and lubricate wire rope cables
- Marine exposed components
- Painted, unpainted or rusted metal surfaces
- Protect moving parts that cannot be painted
- Weld-through approved

Available sizes:

- 4 oz.
- Quart
- 5 Gallon
- 11.5 oz. Aerosol Spray Can (ASC)
- Gallon
- 55 Gallon

Remember "S4.0" for Standard

HV100: The Long Term Rust Shield *Heavy Duty Protection*

Overview

HV100 provides full surface protection engineered for long-lasting effectiveness. This heavy duty version slowly self-polymerizes and provides added protection in extreme weather conditions.

Applications

- Undercoating on vehicles, plus earth moving, excavation and industrial equipment
- Parking ramps, steel structures
- Theme parks
- Protects in extreme conditions
- Painted, unpainted or rusted metal surfaces
- Extends equipment life

Available sizes:

- 8 oz. squirt bottle
- Gallon
- 55 Gallon
- 11.5 oz. Aerosol Spray Can (ASC)
- Quart
- 5 Gallon

Remember "HV100" for High Viscosity

Stops Rust • Lubricates • Displaces Water • Protects • Penetrates
